

## Dimension

## Load Capacity

160D-9L Load Center (mm)

180D-9B Load Center (mm)

## Optional Items

- Fork (L) (mm) : 1800, 2000, 2450, 3150
- MAST : Simplex Mast / Triplex Mast
- MCV : 3-Spool / 4-Spool / 5-Spool, Finger tip
- Sliding Carriage
- Separator Holder Type Fork Carriage
- Seat : Air Suspension Seat, Heat, Leather
- Beacon Lamp (LED)
- BIAS / RADIAL Tire

## Specification

Identification		Hyundai	
1.1	Manufacturer	160D-9L	180D-9B
1.2	Manufacturer's type designation	DIESEL	DIESEL
1.3	Drive : electric (battery or mains) , diesel, petrol, fuel gas, manual	seated	seated
1.4	Type of operation : hand, pedestrian, standing, seated, order - picker	36,000	40,000
1.5	Load capacity / rated load	c in	48
1.6	Load center distance	x in	39.3
1.8	Load distance, center of drive axle to fork	y in	147.6
1.9	Wheelbase		
Weights			
2.1	Service weight	lb	52,810
2.2	Axle loading, loaded front / rear	lb	82,559 / 5,525
2.3	Axle loading, unloaded front / rear	lb	26,599 / 26,209
Wheels, Chassis			
3.1	Tire	Pneumatic	Pneumatic
3.2	Tires size, front (ø x width)	12.00-20-20PR	12.00-20-20PR
3.3	Tires size, rear (ø x width)	12.00-20-20PR	12.00-20-20PR
3.5	Wheels, number front rear (x = driven wheels)	4 x 2	4 x 2
3.6	Track width, front	in	73.2
3.7	Track width, rear	in	80
Basic Dimensions			
4.1	Mast tilt forward/backward with 2-stage mast	degrees	15 / 10
4.2	Lowered mast height	h1 in	126
4.3	Free lift height	h2 in	0
4.4	Lift height	h3 in	119
4.5	Extended mast height	h4 in	183.5
4.7	Overhead guard (cab) height	h5 in	121
4.8	Seat height / Standing height	h7 in	75
4.12	Coupling height	h10 in	24
4.19	Overall length	l1 in	315.5
4.20	Length to face of forks	l2 in	219
4.21	Overall width	b1 in	100
4.22	Fork dimensions	s / e / l in	3.9 x 9.8 x 96.5
4.24	Fork - carriage width	b3 in	100
4.31	Ground clearance, loaded, under mast	m1 in	9.6
4.32	Ground clearance, centre of wheelbase	m2 in	15
4.33	Aisle width for pallets 1,000 x 1,200 crossways	Ast in	350.5
4.34	Aisle width for pallets 800 x 1,200 lengthways	Ast in	350.5
4.35	Turning radius	Wa in	205.5
4.36	Smallest pivot point distance	in	80.6
Performance Data			
5.1	Travel Speed, Unloaded	mph	21.8
5.2	Lift Speed, Loaded/ Unloaded	in/s	13 / 17.7
5.3	Lowering Speed, Loaded/Unloaded	in/s	16.9 / 15.3
5.6	Drawbar Pull, Loaded	KN	134,518 / 131,477
5.7	Gradient Performance, Loaded	%	33 / 30.4
5.10	Service Brake		Hydraulic
Engine			
7.1	Engine Manufacturer / Type	Cummins QS86.7	Cummins QS86.7
7.2	Engine Power Acc. To Iso 1585	HP	163
7.3	Rated Speed	1/min	2,300
7.4	No. Of Cylinder / Cubic Capacity	/ft³	6 / 6,690
7.5	Fuel Consumption Acc. to Vdi Cycle	gal/h	3.2
Other Details			
8.1	Type of drive control	Power Shift	Power Shift
8.2	Operating pressure for attachments (system/attach)	psi	3,335.8 / 2,393
8.3	Oil volume for attachments	gal/min	53.6
8.4	Sound level at driver's ear according to DIN 12 053	dB	71.2

\* Standard and optional equipment may vary. Contact your Hyundai dealer for more information.  
 \* The machine may vary according to International standards.  
 \* The photos may include attachments and optional equipment that are not available in your area.

# 160D-9L / 180D-9B

Performance Enhanced For Tier-4 Final

MOVING YOU FURTHER

## HYUNDAI MATERIAL HANDLING

North American Headquarters

# Your satisfaction is our priority!

Hyundai introduces a new line of 9-series diesel forklift trucks. The newly designed four wheel counterbalance trucks provide operators increased comfort, productivity and ease of maintenance.

An ideal arrangement of components ensures easy access and convenience for maintenance.

**160D-9L**  
**180D-9B**

\*Some of the photos may include optional equipment.

### Rear View Camera

Rear view camera improves site and pedestrian safety. Display supports up to four cameras.

### Hi-mate (Remote Management System)

Hi-mate, Hyundai's proprietary remote management system, provides operators and dealer service personnel access to vital service and diagnostic information on the machine from any computer with internet access.

### Master Switch

A master switch disconnects the battery power to protect the electrical system from excess electrical drainage.

### Mast Specification

Mast Type	Overall Height (Lowered)		Maximum Fork Height		Free Lift Height		Tilt Angle		Load Capacity		Truck Weight (Unloaded)	
	in	mm	in	mm	in	mm	Fwd	Bwd	180D-9B	160D-9L		
							deg	deg	36 in LC	48 in LC		
2-STAGE LIMITED FREE LIFT	V300	126.0	3,200	118.9	3,020	0	0	10	10	40,000	36,000	52809
	V330	131.9	3,350	130.7	3,320	0	0	10	10	40,000	36,000	53037
	V350	135.8	3,450	138.6	3,520	0	0	10	10	40,000	36,000	53194

# Fast and Easy Maintenance

## Large Engine Hood

Highly accessible engine compartment assures fast and efficient maintenance.

## Cabin Air Filter

Positive internal pressure is maintained to slightly higher than that of outside cabin to reduce dust and noise levels.

## Maintenance Management

Integrated with Hi-Mate to track service intervals to properly maintain machine.

## Engine Start Limit

## Hydraulic Cabin Tilt

Cabin tilting system makes servicing of power train components quick and easy. An electrically assisted hydraulic actuated cylinder tilts operator cabin to left side about 53 degrees for easy access to inside of truck components.

Fork Pin Separator Holder

## Separator Holder Type Fork Carriage (Optional)

To improve handling and easily switch forks and other attachment Separator holder system is adopted as option. It is possible to install various attachments like coil ram easily.

## New Diesel Forklift with Proven Quality and Advanced Technology

- Maximum Performance
- Spacious Operator's cab
- Load Weight Indicator
- OPSS System for Safe Operation
- Easy Serviceability
- Hi-mate (Remote Management System)
- 4.3 Inch Color LCD Display
- FATC (Full Automatic Temperature Control) Air Conditioner

Some of the photos may include optional equipment.

# High Efficiency & Optimal Performance

The safely designed driver's space makes your operating more comfortable.

**160D-9L**  
**180D-9B**

Some of the photos may include optional equipment.

## Cummins QSB6.7 Engine

163 hp/2,300rpm  
540 lbf-ft/1,500rpm

### Powerful Engine

The six cylinder turbo-charged engine is built for power, reliability and economy. This engine meets EPA Tier 4 Final and EU stage IV emission regulation.

### Excellent Fuel Efficiency

Improved fuel consumption rate over previous engine technology

### DOC (Diesel Oxidation Catalyst)

### SCR (Selective Catalytic Reduction)

### EGR (Exhaust Gas Recirculation)

### VGT™ Variable Geometry Turbocharger

- High torque at low speeds
- Excellent transient behavior

### OPSS (Operator Presence Sensing System)

When operator is not in seat the hydraulic lift and tilt controls and travel are locked out.

- Lift Lock
- Tilt Lock
- Drive Lock

Some of the photos may include optional equipment.

### Highly Durable Mast & Carriage Side Roller

Side roller with great durability for mast and carriage is included.

### Highly Durable Carriage

The carriage is assembled from high tensile structural steel resulting in excellent durability. Work in narrow aisles with ease as the width of carriage is narrower than the overall width of the machine.

### Excellent Night Work

- Various work lamp positions provide the operator a more comfortable and safer work environment.
- Front : fender (2), mast (4)
- Rear : cab (2)
- LED Rear Combination Lamp

# Advanced Safety

Powerful engine and high technology systems provide you with enhanced performance and highest productivity.

**160D-9L**  
**180D-9B**

### Engine Control Mode

Engine performance can be tailored to operation needs with selector switch.  
STD Mode : Fuel reduction mode for light to medium-duty operating load  
POWER Mode : Heavy-duty or operation on slope

### Adjustable Engine Low Idle RPM

While engine runs, low idle rpm can be increased by units of 25 rpm and it retains previously set rpm when engine restarts.

### Load Weight Indicator

The Load Weight Indicator displays the load weight on the monitor. The load sensor reduces the time to check loaded weight and an alarm alerts the driver when overloaded.

### Rear Wheel Angle Monitoring

- indicates steering wheel angle for easy operation
- Real-time steering wheel angle is displayed for increased operator safety and productivity

### Full-automatic Transmission

Full-automatic transmission gives easy, convenient handling and soft, smooth shifting. The operator can select two kinds of automatic modes. (1st→3rd, 2nd→3rd)

### Fully Hydrostatic Power Steering

The hydraulic steering system always guarantees smooth and flexible steering, preventing over-run and kick-back.

### Load Sensing Hydraulic System

Provides hydraulic oil flow only when needed to operate function. Reduces load on engine, when not needed, resulting in reduced fuel consumption and greenhouse gas emissions. (No excessive flow)

### Durable drive axle

The hypoid type planetary reduction drive axle smoothly delivers desired torque to the drive wheels.

### Wet Disc Brake System

The wet disc brake system is virtually maintenance free and the enclosed design protects from dust and water.

### Advanced Cooling System with Reversible Fan

Reduced fuel consumption by utilizing an electronically controlled, reversible hydraulic fan. Fan speed based on transmission, coolant and hydraulic temperatures.

### Rear Tire Cover

Equipped to help prevent clogging of radiator by site materials.

### Under Cover (Optional)

This cover protects engine and components from operation site debris. Helps extend component life

### Increased Mast Tilting Angle

Utilizing the mast tilting angle of 15 degrees forward and 10 degrees backward, the operator can perform loading and unloading jobs safely and rapidly.

### Max.Gradeability (loaded)

Model	%
160D-9L / 180D-9B	33

### Max.Travel Speed (Unloaded)

Model	mph
160D-9D / 180L-9B	21.8

### Faster Travel Speed & Better Gradability

The powerful engine provides greater acceleration, better gradability and faster travel speed on any tough terrains or slopes.

# Best Convenience & Optimised Ergonomics

The ergonomically designed cabin provides full support and comfort to the operator.

**160D-9L**  
**180D-9B**

Some of the photos may include optional equipment.

## Spacious Operator Cabin

The newly designed cabin was conceived for more space, a wider field of view and operator comfort.

### New Design Cluster

1	Parking Brake Lamp	2	Check Engine Lamp	3	High beam indicator lamp
4	Operator presence indicator lamp	5	Seat belt warning lamp	6	Hour meter
7	Odometer	8	Outside temperature indicator	9	Air-con setting temp. indicator
10	Machine Incline / Slope Indicator	11	Transmission oil temperature gauge	12	Fuel gauge
13	Engine coolant temperature gauge	14	Right turn signal indicator lamp	15	Mast tilt angle indicator (optional)
16	Rear Wheel Angle Indicator	17	DEF level gauge	18	T/M information display
19	Clock	20	Load weight indicator	21	Tachometer
22	Left turn signal indicator lamp	23	Speedometer		

### MP3 Player

### Bluetooth Hands Free Remote Control Socket

### Centralized Instrument Switch Panel

### Luxury (Leather, Heat) Seat (Optional)

An attractive and adjustable ergonomically designed seat provides great comfort, safety and durability.

### High-output Air Conditioner & Heater

A high-output air conditioner and heater with multiple air vent positions mounted front and rear to increase room in the cab. The new climate controller heater and air conditioner provides high output to quickly heat or cool, and then maintain the desired comfort level of the operator.

### Adjustable Steering Column

Steer wheel tilt angle and column height adjustable for operator comfort.

### Fingertip Control

Ergonomically designed fingertip control levers increase operator comfort and productivity.
